IDENTIFIERS	National School Lunch Program; School Breakfast Program; Special Milk Program

ABSTRACT

The status of school food service in 150 cities with populations of 100,000 and over for fiscal year 1971 is covered in this report. It consists of six sections: general information on all schools in the national school lunch program, schools with other and no food service, schools in low income areas, schools in the school breakfast program, and schools in the special milk program. Numbers of school and of children are shown by elementary and secondary grades and by a combination of both. Schools with only the special milk program have not been included in the category of schools having a food service. According to data collected, 2,146 schools in these large cities do not participate in the National School Lunch Program, 491 being located in low income areas. Of these, 386 are elementary and 105 are secondary. The report is considered to be of value to cities for comparing performance and exchanging ideas for building student participation in the program. URBAN SCHOOL FEEDING SURVEY

Fiscal Year 1971

The attached report covers the status of school food service in 150 cities with populations of 100,000 and over. The figures are based on March 1971 operations and were obtained from the cities through the State educational agencies by the Food and Nutrition Service Regional Offices. The report excludes private schools in those cities which are administered by FNS Regional Offices in the following States:

Alabama	New Jersey
Arkansas	North Dakota
Colorado	Ohio
Hawaii	Pennsylvania
Idaho	South Carolina
Iowa	Tennessee
Maine	Texas
Michigan	Virginia
Montana	Washington
Nebraska	West Virginia
Nevada	Wisconsin

The report is made up of six Sections as follows:

. General Information on All Schools
. Schools in the National School Lunch Program
. Schools With Other and No Food Service
. Schools in Low Income Areas
. Schools in the School Breakfast Program
. Schools in the Special Milk Program

Numbers of schools and numbers of children are shown by elementary and secondary grades and by a combination of both. Schools with only the Special Milk Program have not been included in the category of schools having a food service.

In FY 1970, two separate surveys were made -- one for cities with populations between 100,000 and 250,000 and the other for cities with populations of more than 250,000. In measuring overall progress in city school food service from FY 1970 to FY 1971, it will be necessary to combine the data collected for both FY 1970 surveys. Beginning with FY 1971, only one survey will be made and this on an annual basis.

According to data collected, 2,146 schools in these large cities do not participate in the National School Lunch Program, 491 being located in low income areas. Of these, 386 are elementary and 105 are secondary.

This report will be of value in our continuous joint efforts to make the National School Lunch Program available to all school children. It will also be helpful to cities in comparing performance and exchanging ideas for building student participation in the program.

The cooperation of the cities and States in providing the information for this survey is gratefully acknowledged.

NOTE: Average Daily Participation shown for National School Lunch Program was calculated by Program Reporting Staff.

*Calculated by Program Reporting Staff

1/ Secondary schools consist of ala carte service.
